Nestled into the lush landscape of south Hilo near the Wailuku River, this all-redwood, three-bedroom, two-bath home has been fully renovated, from flooring and paint to electrical and plumbing. Its ideal location is just minutes from downtown and the bay front's restaurants and boutique shopping, only two blocks from Hilo Medical Center and Kaiser Permanente, and less than a mile from Rainbow Falls and Boiling Pots. The home offers a chic treehouse feel, with vaulted ceilings, built-ins, and a focal-point fireplace in the living space, along with kitchen details like a farmhouse sink, a breakfast bar, and a pass-through to the dining area.
