Perched overlooking the beach at 49 Black Sand Beach, this dramatic 2-story home is the perfect family retreat in this private gated residential enclave. Incredibly spacious, the home also has a separate guest Ohana with its own garage. The architecture is dramatic with cathedral ceilings finished in rich mahogany, travertine floors, etched and stained-glass windows, granite counters, solid mahogany custom doors, garden showers on the lower bathrooms, and freshly painted throughout. From the great room, through the sliding pocket doors, the lanai extends to the salt-water infinity pool and spa. The home is offered partially furnished. A perfect place for entertaining and large family gatherings.
