This spectacular home is located in the rarely available Heathers section of Kohala Ranch at an elevation under 300 ft., with year round sunshine. The lower entrance has a manned security center. You can really embrace the panoramic views of the ocean, Mauna Kea, Mauna Loa and Mount Hualalai from the many full wall pocket doors that open to the expansive lanais & outside garden areas. When the whales are here from November to May you are close enough to watch them leap out of the water and hear them breathing! Enjoy beautiful sunrises too. The beautiful landscaped tropical garden has a soaking pond with a waterfall that can be viewed from every room. This home is very private and inviting.
