Beachfront in Hawaii: Tucked away along Oahu's eastern sandy shorelines, "Hale Wa'a" designed by famed Hawaii architect Jeff Long enjoys stunning turquoise Pacific Ocean & Coastline views throughout its living spaces. Private, gated entry opens up to a tropical island landscaping welcoming you inside to open-concept indoor/outdoor living, where a chef's kitchen, dining area, and living room spaces join to an outdoor oasis via panoramic pocket doors. Three resort-style ocean view bedroom suites, two with their own private cedar-wood saunas, are the perfect setting to entertain family & guests. "Hale Wa'a" enjoys a beachfront location, positioned along an extra-wide portion of white sandy shorelines, your personal playground for water sports & beach activities. A truly special residence offering a rare chance to capture an authentic Hawaii experience.
